

The Honorable Michael K. Powell
Chairman
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Dear Chairman Powell:

I am writing to you today to give my disapproval at the proposed change in the way that the RBOC's have to give access to local providers like myself. I currently have to purchase a physical connection to an ISP through the monopoly that is Verizon. I can not get these types of services anywhere else. I need these services to set up my points of presence in the DC area in order to serve my wireless customers. Without access to the public network I would not be able to do what I need to do to sustain my business. Please do not allow this rule to go into affect or smaller providers like myself will not be able to compete against a company that can set two rules, one for themselves and one for everyone else.

Sincerely,

Greg Wilburn
